As an eager and passionate entry-level MERN stack developer, I have a strong desire to create dynamic and responsive online applications. My interest with the process of creating websites and my desire to use code to make my thoughts a reality led me to pursue a career in web development. I have recently finished extensive training in the MERN stack (MongoDB, Express.js, React, Node.js), which has given me a strong foundation in front-end and back-end development. I am also proficient in database management, RESTful API creation, and interactive UI development.

Areas of Expertise

- Front-End : HTML & CSS, JavaScript, ReactJS
- Back-End : NodeJS, Express JS
- Database : MongoDB, MySQL
- Other Technologies : RESTful APIs, Git & GitHub, Responsive Web Design

Education

Government Engineering College, Gandhinagar.

Bachelor of Engineering, 2022 – Pursuing | CGPA : 8.43

.

Dr. S & SS Ghandhy College of Engineering & Technology, Surat.

Diploma Engineering, 2019 – 2022 | CGPA : 8.34

Projects

MERN Authentication with JWT Token

- Developed a secure authentication system using the MERN stack (MongoDB, Express.js, React, Node.js).
- Implemented JSON Web Tokens (JWT) for user authentication and authorization.
- Key Components : Login form, JWT implementation, front-end integration.

CRUD Operation with User Management System

- Built a robust user management system with Node.js, Express.js, MongoDB, and EJS.
- Designed a responsive and user-friendly interface using EJS templates
- Enabling dynamic content rendering and seamless user interactions.

Chat Web Application

- Developed a real-time chat application with Node.js, Socket.io, HTML, CSS, and JavaScript.
- Provided a lightweight and efficient platform for casual conversations.

Additional Skills

Soft Skills : Creativity, Communication, Flexibility, Emotional Intelligence, Team Collaboration.

Hard Skill : Problem Solving, Research, Adaptability, Copywriting, UI Design.
